

d. Remarks

Claims 1-36 are pending in the application. Claims 35 and 36 are new.

FIG. 38 showing a cylindrical bracket shaft has been added to the drawings, and the specification has been amended accordingly. The two new claims also concern the cylindrical bracket shaft. Antecedent basis is found on pages 16-18 (bracket shafts) of the specification and in the amendments herein. No new matter has been added to the application. Applicant requests that this amendment be made of record in the case and considered by the United States Patent and Trademark Office Examiner, and that the claims be allowed.

Respectfully submitted,
